

--That the FCC should not implement  
any proposal that would lessen  
Indiana's Telephone Privacy law  
protections.

We use to receive telemarketer calls at all hours of the day and night with no regard to our privacy. We have had calls on Sunday night at 8 to 9:00pm in the evening. I pay for this phone line, they do not. If I decide to use a service I will look in the local Yellow pages and then contact the Better Business to find out if they are trustworthy and deserve my business. The fund raisers use to call from all over the country acting as if they are a local Charity organization with no way for us to tell the difference. Since Indiana has passed this law we can go to our phone and answer it not fearing that it is just another solicitor tying up our phone line.

Thank you for your help in maintaining our privacy.
